TOWN TALK

By THE MAN ABOUT TOWN.

It is interesting to see what the bill allowing the court to decide upon the fee which shall be paid to an attorney assigned to the defence of a criminal case when the prisoner has no money, has resulted in. In picking up the Hawaii Herald today I find that if an attorney succeeds in getting a man off with three to five years his services are worth \$40, as happened with W. H. Beers and W. S. Wise. But in case the lawyer gets his man off with six months or even eighteen months, as in the case of the clients who were represented by Harry Irwin and J. U. Smith, the job is worth only \$25. Judging from this basis if my friend Carl Smith should represent a man who was given life imprisonment, the Hilo attorney should get at least \$500. If the court should find itself compelled to administer the death penalty in a case in which Brother Le Blonde had defended, the latter should be able to retire from labor for the next year or two.

GOOD POINTER FOR JOHN O'ROURKE

NEW YORK, July 16.—One of the surprises of the meeting at the Empire City Race Track is the successful running of the horses owned and trained by H. G. Badwell, formerly a druggist of Denver, Colo., which business he gave up a few years ago on account of ill health. Arsenic, a deadly poison, is the secret through which Badwell has been able to keep his horses in good racing condition, and each day they have a portion in their food as a tonic.

"Horses, like men, lose their vital forces through hard work," said Mr. Badwell. "In order to tone them up, I give them arsenic in small doses. It serves as a tonic for the blood, and with the blood in condition my horses thrive and are able to race at their best speed."

Fukushima, on coming forward to become a surety for Yokokawa, who was arrested on Maui for having indecent pictures in possession as Makino is charged with here, was recognized as a Japanese who got out of prison, after serving part of his sentence as a member of the Ten Dollar Club, by taking the poor man's oath. On his appearance now as a would-be bondsman he swore he was worth more than \$2,000 in consequence of which proceedings will be taken to recover \$700 of fine and costs he still owes the United States. Negoro, the conductor of Makino in the higher wage agitation, brought Fukushima into the limelight and trouble by finding him when he went out to look for sureties for Yokokawa.

The Canadian-Australian steamer Aorangi, Captain Phillips, arrived this morning from Vancouver and Victoria. She brought but twenty-nine tons of freight for this city and will sail for the Colonies this afternoon at 3 o'clock. She brought down the largest passenger list for this city which has come here by any of the vessels from the Northwest for a long time. The total number of passengers was fifty-three, of whom twenty-two were steerage passengers. These were the Portuguese immigrants from Massachusetts, who are being sent here to work on the local plantations. Of the first-class passengers there were very few local people, the majority being tourists.
